RETAIL DEMAND & INVENTORY INTELLIGENCE

Smarter Demand. Better Inventory Decisions.

A data-driven view of retail demand, model performance, product trends and inventory risk.

Displaying 10,470 product-store combinations across 10 stores.

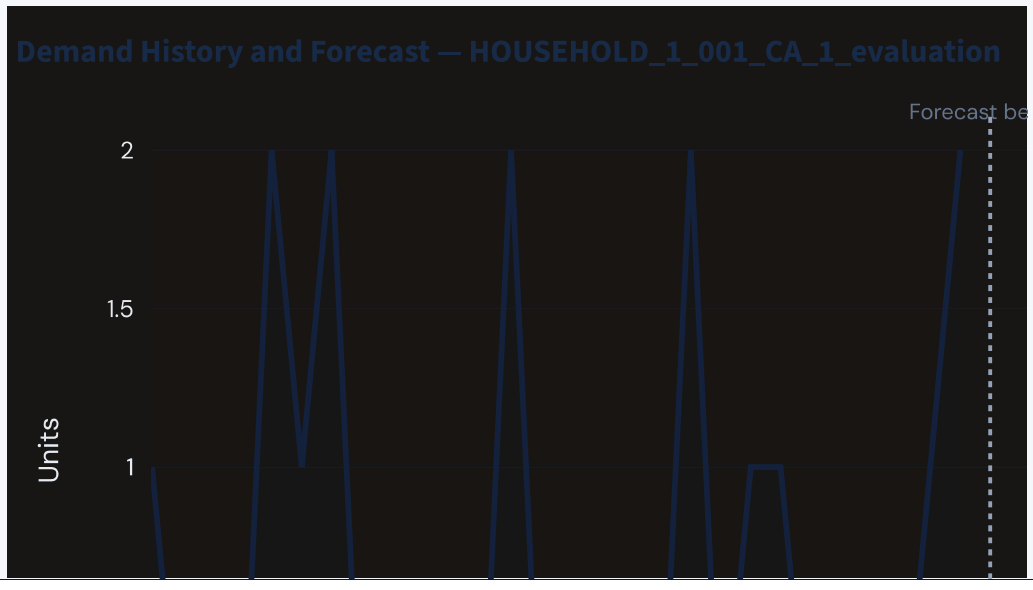

Historical vs Forecast

Compare observed historical sales with model-generated demand estimates for the same product-store combination.

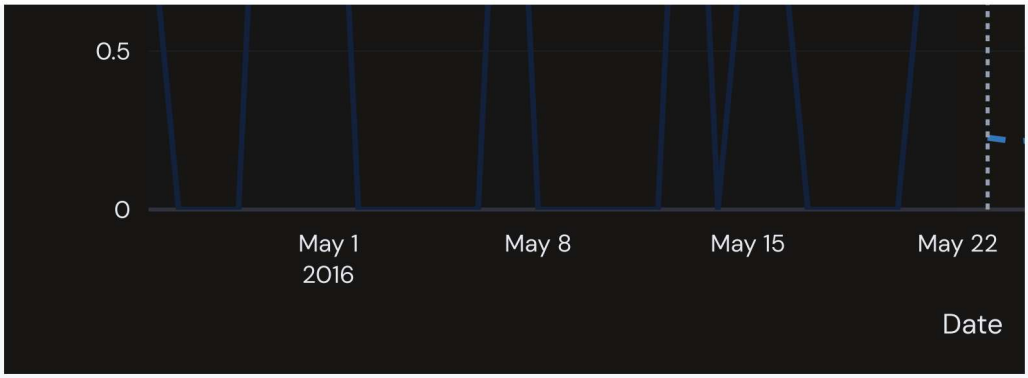

Historical period: April 25 – May 22, 2016 | Forecast period: May 23 – June 19, 2016. This is a historical M5 benchmark exercise, not a live forecast.
